

SRB Enterprise Hong Kong

With headquarters in Hong Kong, **SRB Enterprise** provides superior consulting services for managing the supply and installation of High-End Biomedical Engineering Equipment for scientific applications in major sports science laboratories and other rehabilitation centres in China and Asia Pacific.

SRB Enterprise brings a fresh and innovative approach to consulting services, acting as exclusive distributor of important principals in Europe and America. Our goal is to exceed the expectations of every client by offering outstanding customer service, increased flexibility, and greater value, thus optimizing system functionality and improving operation efficiency. Our associates are distinguished by their functional and technical expertise combined with their hands-on experience, thereby ensuring that our clients receive the most effective and professional service.

As experts in human performance laboratory equipment for more than 12 years, **SRB Enterprise** is involved in every stage upon client selection of Biomedical Engineering Systems software from implementation to completion offering continual functional and technical support. Our extensive skills encompass all aspects of implementation and operation, including business requirements definition, development of functional specifications for client approval, system design, and overseeing development teams customizing software to fit specific client needs. Typically, we are on-site at the customer's locations handling client contact, providing functional and technical training and support, and resolving any and all troubleshooting issues that arise when the situation calls for it.

At **SRB Enterprise**, exceptional functional and technical expertise coupled with extensive industry knowledge makes **SRB Enterprise** for a consulting firm to supply and install biomedical engineering system in Hong Kong, Macau and greater China and the Asia pacific region.
